Amount of active ingredients

Total Count > 1×10^8 CFU/ml

Recommended dosage

Spray 4-6 puffs daily on the teeth or in the mouth of pets

EXPERIENCE HEALTHY LIFE

Mode of action

Mode of action of probiotic microorganisms

The probiotic strains present in this product have a very high ability to produce bacteriocin. These compounds have strong antibacterial and antifungal properties that prevent oral plaque after scaling and oral infections.

Mechanism of action of plant compounds

Spearmint

Mint has strong antimicrobial effects and it is effective in oral and dental health and prevents gingivitis and dental cavities. Mint, in addition to preventing the growth of harmful bacteria in the mouth, makes it fresh and refreshing breathing.

Eucalyptus

Eucalyptus has antibacterial and antifungal properties, which can affect respiratory problems such as sinus inflammation, coughing, colds, asthma, bronchitis, and nasal congestion. In addition to helping to eliminate respiratory problems with its disinfectant properties, this plant also eliminates germs and eliminates bad breath.

Clove

Clove contains a chemical compound called eugenol and in addition to bactericidal and viricidal properties, it is widely used as a topical dermatologist and relieves toothache.

Advantages

- Preserving health and pet oral hygiene
- Removing microorganisms that cause infection of the gums and teeth
- Eliminating bad breath and mouth freshener
